The Department has reached the conclusion that the Vizcaya and the all will not be brought to the United States by ment of \$829 25 a day since July 29 without salvage. The same company since July 6, when that the Infanta Maria Teresa is now on her Norfolk, where a commission will decide what additional compensation, not exceeding \$500,000, shall be paid to the wrecking company

The Board on Construction, to which the matter was referred for consideration by Secretary Long after ne had virtually decided that the present arrangement was becoming intolerable, day assumed the responsibility of recomending that the contract for the salvage of the Colon be annulled on November 10, and that new proposals for righting and raising that vessel be publicly sought by the Navy Department under restrictions which would involve the Government in no additional expense unless the at empt was altogether successful.

The Department will send a cable dispatch to Captain Colby M. Chester, senior naval officer on the south coast of Cuba, to-morrow, if the recommendations of the Board are approved, as they will be without doubt, directing him to centrate the wrecking work for the present stogether on the Reina Mercedes, which is submerged in still water and capable of ready raising, and that no further attention for the present be paid to the Oquendo and the Vizcaya.

Captain Chester will also in all probability be lirected to proceed at once to destroy the collier errimac, utilizing for this purpose the nava vessels under his command and their explosives, this plan being calculated to relieve the Government of additional expense, while at the same time giving naval seamen desirable practice in countermining and the removal of channel ob-

Naval officials have not expressed any particular dissatisfaction with the work of the Merritt & Chapman Wrecking Company, which has received over \$1,600 a day for more than three months at Santiago, and which saved many valuables from the Maine in Havana Harbor until compelled to desist by the certainty of improducing hostilities, but the experts are thoruntil compelled to desist by the experis are thor-impending hostilities, but the experts are thor-oughly agreed that little more can be accom-plished beyond the raising of the Mercedes with the present plant at Santiago, and they have decided that further expense in other di-

have decided that further expense in other directions is unwarranted.

This decision has been influenced to some extent by the arrival in Washington of representatives of a great Swedish wrecking corporation, which succeeded in rescuing the British battle-ship Howe from a condition comparable only with that of the Cristobal Colon, and which points to a record of over five hundred ships which it has extricated from more or less serious positions, nearly all of them submerged at considerable depths. This company, it appears, is not only confident of its ability to bring the Cristobal Colon and the other Spanish vessels to the United States, but is ready to guarantee the delivery of the Maine in the hig drydock at the New-York Navy Yard. The Swedish wreckers propose to take all the risks of failure without expense to the Government, and to rely, if they succeed, for compensation wholly on arbitration.

CONCERTS THAT WILL NOT BE GIVEN.

The New-York Orchestra ought to command good prices and have a successful season this year, since it is said that unheard melodies are sweeter than those which are heard. The promise of forty-two concerts that was made for this organization has dropped to a possibility of ten, if support can be found for so many. The announcement was made in these columns yesterday of the drawal of Carl Löwenstein from the management of the concerts which were projected at the Waldorf-Astoria, and it now seems probable that the series will in the end be given up altogether was thought that Mr. Boldt, the manager of the hotel, would carry out the plans for the conterts notel, would carry out the plans for the concerts on his own responsibility, but he said yesterday that he should not do so, and it is therefore improbable that they will be given at all. The series of twenty-two Sunday evening concerts at Carnegie Hall has also been given up. All that is left is the proposed series of five evening symphony concerts and five afternoon rehearsals at Carnegie Hall. For these Mr. Paur, the director of the orchestra, is still seeking a backer and manager, and if he finds one the concerts will be given.

JOHN DE WITT WARNER, HENRY WHITE RECEIPTS AND EXPENDITURES IN OCTOBER AND OTHERS DENOUNCE CROKER'S

ASSAULT ON THE JUDICIARY. The canvass for the independence of the Bench s making marked headway on the East Side. Last night several meetings were addressed by speakers who denounced, amid great applause, Croker's atto make the judiciary an annex to Tami One of them was held in Apollo Hall, in Clinton-st., near Broome-st. Dr. Victor C. Bell pre-sided, and among the speakers were John De Witt Warner, Henry White, president of the United Gar-ment Workers, Julius J. Frank, and E. G. Hoyt.

Henry White declared that Croker had insulted the intelligence of the voters in his frank declaration of the reasons for which he had refused Judge Daly a nomination. 'The occasion was never so great," he said, "for a popular uprising against the domination of this man who has dared to lay hands on the bench and to chastise an upright judge for refusing to render a personal service to him. A judge is the interpreter of the law, and between the law and politics there must be no partnership. An example now will be needed for a

"When he is elevated to the bench, said Mr. Warner, 'no man should be able to tell the difference between a Republican and a Democrat. The question is not so much what Croker will do (we know what he will do), but what we will do, what sort of men we are. I want to see Van Wyck elected, but to yote for Croker's nominees for judges would, under the circumstances, prostitute Democracy."

WORKINGMEN KNOW ROOSEVELT

HIS RECORD AN OPEN BOOK AND HIS GRASP OF LABOR PROBLEMS OFTEN DEMONSTRATED. The Roosevelt and McDonough Labor Club has

ssued an address to the workingmen of the State ontaining the following.

Which he pledges his word to enforce the labor laws of the State, is more than a common campaign oromise. We know Roosevelt to be an enforcer of aws, and we know him to be a man far above the iverage politician. He will keep his word. The best we can do is to elect him, and thereby get a chance to have our labor laws put into practical operation, many of which until now have been lead latters.

chance to have our labor laws pur into practical coperation, many of which until now have been dead letters.

A proper running mate for Roosevelt is John T. McDonough, the Republican candidate for Secretary of State, the present Commissioner of Labor Statistics, the father of the constitutional provision prohibiting prison labor competition, a recognized lifelong advocate of organized labor, who enjoys the confidence alike both of Republicans and Democrats, and who, we are quite certain, will need no further commendation on our part.

The workingmen of this State should not hesitate to vote for Roosevelt and McDonough, labor's friends and supporters.

The address is signed by the following men, who are all prominent in the trades unions. William F. Derfilinger, Michael Kelly, John F. Neubel, Thomas Clegg, Edward Sabine. T. J. STATE POLITICAL NOTES.

The Democratic election figures which have been published here in the last few days excite ridicule in the country. "The Utica Herald" says:

Democratic claimants of victory for "the firm." Van Wyck, Van Wyck & Co, put Onelda County down for 1,000 for Roosevelt: That is a sample of the estimates which make New-York a Tammany State, and any one can see the process is simple. Onelda gave Judge Wallace over 3,500 a year ago, and his opponent wasn't afraid to say he voted for Bryan.

Robelyn Eagle' makes a poor bid for country votes for Van Wyck when it tells about Theodore Roosevelt addressing fly-gobbling clothoppers in the back counties. Voters in the back counties cometimes object to such things.

The speeches he has made by the dozen all over the State have helped him wonderfully. One of the strongs stinituences to that end has been his oft-repeated declaration of a determination to follow only his hest judgment as to what he regards as right, which is accepted as meaning that he will be independent in his administration if elected, and pursue the policy which made him so much respected in the New-York Police Commission. He makes these promises in a way which impresses the people with his earnestness and sincerity.

Last year Judge Wallace carried Broome County by 1.858 plurality. That fact should be borne in

"The New York World" has figured out that the State Legislature will be Democratic. This is all very kind of "The World," but it does not obviate the necessity for the voter to get out and make his mark on the blanket ballot, just the same. By the way, that must be a valuable estimate which "The World" has made if it is like that of "The New York Journal," which gave Van Wyck 1000 plurality in Broome County.

"The Lockport Daily Journal" thus characterizes the misrepresentations of the secent mass-meeting in Rochester at which Lieutenant-Governor Wood-

THE REV. DR. J. M. HENDERSON REFUTES THE

Sir: Through certain colored men Tammany is daily publishing extravagant claims as to the number of Afro-American votes that are assured to the Democratic ticket. I am pastor of a church that every week puts me in touch with more than fifteen hundred people, and I can speak with authority and knowledge. I know each Afro-American of any influence whatever who has openly expressed himself in favor of Tammany. There are none who have done so except those who either have or seek to secure office. We are all glad to see members of the race get good things, and feel very kindly toward those who have been tempted, but it is unfair to the rest of the people to allow

false statements to go uncontradicted.

The news from North Carolina and the dally ories of lynching in other States, all of which are to be charged to Democratic sentiment against the negro, are enough to make every colored man vote the Republican ticket, except he be one of those who for the sake of personal gain is tempted to forget his brethren in the South.

Besides such considerations, there is the positive influence exerted upon Afro-Americans everywhere by the story of San Juan Hill. To elect the man who in the supreme moment of battle has learned to know and respect the race is an end that arouses every worthy Afro-American in the State. Besides this, Afro-Americans pay taxes on \$19,000,000 worth of property in the State, and have therefore practical reasons for supporting the party that has educed the tax rate and yet accomplished the mosfor the public.

jealous eye it is the judiciary branch of the Gov-ernment. Only the most potent personal temptation can seduce any Afro-American to Tammany, and, sacrifice the race for personal gain are very few.

A PLEA FOR GENEROSITY TO SPAIN

Sir: Allow me as an ardent friend and supporter of the Administration to express the earnest hope that in case President McKinley favors our taking the Philippines he will also approve making a even generous financial offer to Spain in return Because she is down, to say that we can do as we like and she cannot help herself would to my mind be revoltingly inhuman, not to say de plorably unchristian. GERMAN EXPORTS INCREASE. Berlin, Nov. 1.-The Imperial Statistical Office has issued tables regarding the German trade for the first nine months of the present year, which show a total increase in exports of 58,559,000 marks, as compared with 1897. This is partly accounted for by the increase in exports to the United States during the third quarter of the year, when the exports totalled 83,100,000 marks, as compared with 200,000 marks for the corresponding quarter of

It is asserted that both England and France also show a large increase of exports to the United States during the same period, but both countries had a large total decrease in exports for the nine months.
